

*Planning to meet with Sarah Slaton, the outdoor recreation chair this week about doing the campus wide survey so when I find out that information I will e-mail it to you as a pseudo report

- Community Service- Community Service Council has finished selecting the clubs and organizations that will receive funding for certain events. The one distribution to those clubs will be finalized this week.

Chai Alaha is partnering with the Council to head the Christmas Stoc\$ings for Families project. Another clubs or organizations that would like to help with this project are more than welcome to help and/or participate in carrying out this event. If you know of anyone that may be interested please have them contact someone from either organization.

- Diversity Council- This week was very productive for our council, as we have resolved a lot of issues concerning the biggest event (International Dinner)

First, let me remind you of what we are going to do for the International Dinner

Monday - Fashion Show at our national out/its

Tuesday - Open House for the International Dinner

Wednesday - International Dinner, International Festival

Thursday - International Games

Friday - Arabian Night

Also, we have a very good participation of students. Members are very excited for the International Dinner and ready to put their active commitment to its development. We were able to make some posters to advertise for the Arabian Night in Aladdin style. We had our first rehearsal and bought decorations for Arabian Night. We made an advertisement video for the Diversity Council. We are very happy because a lot of clubs and individuals signed up to help. We are very excited for the dinner.

Be not for the day - Don't let anyone from outside try to belittle our ambitions. Small people always do that, but the really great make you feel that you, too, can become great. [E F 5 ar\\$ &ain](#)

- Eagle Ball - A huge success (the movie on November 6th was a huge success. We showed transcripts and I was very impressed that everyone had some time to relax and socialize with friends. It was so good that after the movie, people stayed while we were cleaning to talk more. I also think it has been a great way to also break some cliques and know people better. We are also continuing to have more parties to celebrate the dinners for hall contests.

Next business (in Wednesday since there is no school) 9A-9A

community service, which will be discussed more at tonight's 3pm meeting. We are planning on what to do during finals week in November; our social activities will be #1 - #4 bringing our own booth at 9am or an ice cream cart.

- **Interclub-** This Interclub has been working on making a survey for the bids at the Kappa Kappa Gamma Club and the bids at the CSI. A meeting has been scheduled with Advisor Stanley to go over this and direct it. An official report of the event is also being made for the special events tab of the 2009-2010 Interclub notebook. Also, we have been re-arranging for the next meeting tomorrow, in which we will go over the Fall Carnival in more detail with the clubs. We will also start planning for the Lane of Friends happening next month and get some help with the International Dinner on the 3rd if it's needed by the University Council.
- **Campus Centers-** This I emailed a report about our mid-term evaluations for the delegates of the outreach centers and it looks like we are going to set up a meeting for that this week sometime on Thursday. I also spoke with our freshmen senator Ben and wanted to encourage him more on the part of bringing in ideas for CC. We spoke and I gave him the opportunity to plan an activity all by himself with me help for the students and so far he's still working on it. We'll see how this works out.
- **Program Board-** The only thing that happened as being night with 10 students. There is no movie this week and there will be being and a movie next week. Our treasurer, Mina, co-director, Luis, Advisor Silvia, and Jim attended NAACA, and had a blast. He also attended a show for booking and were able to book close to 8 performers for the rest of the year. We're hoping for all of them to work out and fit into our budget so we can have a lot of fun this year.
- **Public Relations-** This week we talked about the harvest festival, international dinner, and I mentioned the canned food drive and the health comment for the week. We're also starting to get December's service going.
- **Sustainability-** Last week in sustainability we gathered information about the possibility of recycling the cartridges for the printers through Cartridge World. Lance is supposed to do some more digging and let me know what will happen for sure. This week in sustainability we have our meeting and we are going to figure out a way to reward students for recycling and being more eco-friendly.
