- # - really excited about the (oting turnout. We more than doubled the number of voters. We reached almost 6,233 voters. One of our goals was to make Senate known on campus and this is proof, that we're doing that. Voting raises awareness. I would like to congratulate everyone who made it and didn't. Gou all played a huge part in having such a great turnout. We would like to congratulate the President, Vice-President, and 8 Senators and elected. These were announced unanimously on election, by Senator Price. I recommend that we go stricter with our campaigns. I felt that it was emphasized clearly. I make sure that you do it, or you're not about everyone else. It's about you representing yourself, as the best candidate. I am (every round of, the student senators we have, anyone has a concern, please approach it with integrity and respect. I have heard some negative talk about our group and it's, ends because we are a group of, integrity. Let students know that as far as the 63rd senator is concerned, we are following the constitution. Let's have each other's backs and be strong together.
